—Bob Frederick has just completed an addition to his house in the way of an elegant conservatory, for his wife's flowers, of which she has the finest collection in the city.

—Henry Hawkins, who has been engaged laying brick on the Spring building, Maitland, came home last week, having been compelled to stop work on account of a lame hand.

—Tom Jones, a former Holt county boy, but now traveling for a wholesale grocery house in Council Bluffs, Iowa, was shaking hands with his many friends in Oregon, last week.

—The wheels of the Orchard City Wagons are soaked in hot lard oil before ironing, this prevents the tire from getting loose for many years, and the wheels are greatly benefited by it.

—Married, at the residence of the bride's father, Mr. James Hart, Esq., of Mound City, Missouri, by Wm. A. Gardner, Milton Batterson, of Cameron, Missouri, and Miss Mary Hart, of Mound City, Mo.

—F. B. Springs, of Maitland, was in Oregon last Tuesday, hunting bricklayers to work on his new building. He succeeded in engaging Mr. Wm. Hawkins, who went up Tuesday evening.

—We return thanks to Adam Klipple, of Portland, Oregon, for the September number of "Pacific West Shore," a handsome magazine devoted to the interests of Portland and the state of Oregon. It is finely illustrated.

—McDonald, known all over the country as "The Tramp," was in Oregon last week, taking orders for the Standard Printing Company Hannibal, Mo., for which he is now traveling since the failure of the Hannibal Printing Company.

—Read what James B. Payne has to say in this issue of the SENTINEL. Having purchased the Schulte Bros' stock of goods, he is determined to keep up the reputation of the old firm, and is receiving new goods every day and selling as cheap as the cheapest.

—Several physicians in the county have not yet got the necessary blanks for filing records of births and deaths with the county clerk. They can get the same on application. This is something they ought to do as the law affixes a penalty of \$10 for failure to report each case within thirty days.

—Mr. H. C. Schmidt, one of our enterprising dealers in wagons and buggies, has just received a large number of the celebrated Orchard City Wagons. Parties desiring to buy will do well to give him a call, as he handles nothing but strictly first class goods, and every word he tells you can be relied on. He will also make you anything manufactured by a first class wagonmaker.

—List of letters remaining in the Post Office at Oregon, Mo. on the first day of Nov. 1st. E. L. Allen P. M. W. E. Barnes, E. J. Butler, J. L. Bates, Eugene Butler, Miss Laura Chucks, Mr. Louis Dandon, Miss Alice France's Mrs. Sarah French, Mr. A. D. Hawley Alexander C. Hardee, Miss Annie Johnson, J. J. —The Orchard City Wagon, or the Millburn Buggies have no superior in quality, material or workmanship. H. C. Schmidt, Oregon, Missouri, sells them.

—T. C. Dungan our popular attorney, was jaunting over the county last week, looking after his large real estate interests. Mr. Dungan was accompanied by a Mr. Lash of Illinois.

—By reference to the Merchants Tax Book, printed in this issue, it will be seen that Mound City has over 90 percent more merchandise than any other town in the county, and a gain of 20 percent. over last year.—Mound City News.

—A few weeks ago we made mention that Mr. Jno. Patterson would go to Nebraska and engage in the livery business. We are glad to say that Mr. Patterson has reconsidered the matter and has concluded to remain in Holt county.

—A fire was kindled by some thoughtless person in the woods near Mr. G. W. Hutton, last Monday and burned over a considerable territory before it could be checked. If it had been a dryer time a great damage would have resulted to timber, and a vast amount of cord wood consumed. Persons should be very careful with fire among the dry leaves.—Mound City News.

—As the weather clears up and the roads once more become in a passable condition, farmers are coming into the city in almost countless numbers to do their trading, and the merchant, as he sees the stock of goods gradually diminishing and his bank account steadily increasing in consequence thereof, smiles a smile of contentment, and writes up a column advertisement for his paper—that is if he is an enterprising merchant he does.

—Do not deny your children the use of a home paper. They will read the county news when they will read nothing else, and children who acquire the habit of reading, are always the most apt pupils at school. The home paper is the cheapest educator you can get. If you do not wish to take the SENTINEL, take the Press, if not this then select either the Mound City News, Maitland Independent or Craig Meteor. For the love you bear your little ones, give them a home paper to read.

—The dramatic entertainment on Friday and Saturday evenings last, given by our home troupe, was well patronized and their rendition of the plays were well received by the people. The play "The Widow Hunt," or more familiarly known as "Everybody's Friend," is one of those peculiar compositions in which every character may be "starred." It is not an uncommon instance in amateur entertainments of this kind, to have one or two "streaks" in its organization, but we are glad to say this one is without any drones. Each and every member of this company sustained their respective role in an admirable manner. Much of the success is due to the untiring efforts of Mr. L. C. Irvine.

—Capt. Kauchera, a scholarly gentleman who resides at Oregon, Holt county, has kept a record of the weather for the past twenty-eight years. In a communication to the St. Joseph Herald, he says: "During the last 26 days of October this year, we have had 7.23 inches of rain and melted snow; the greatest rainfall for any October month, during a period of twenty-eight years. There has been twenty rainy days during the month, up to the 26th, when the report was made.—King City Chronicle.

—Will J. Schatz, the popular teacher of the Mt. Pleasant school was among his old friends in Forest City, last Saturday.

—Clark Philbrick and wife spent last Sunday in St. Joe, the guests of Mrs. Philbrick's parents, Mr. and Mrs. Streckerbein.

—Wm. G. McIntyre, one of the prosperous farmers of Upper Holt, was circulating among his old friends in Oregon, last week.

—There is no lighter running or more perfect wagon made than the Orchard City. It is fully warranted. For sale by H. C. Schmidt, Oregon, Missouri.

—We are glad to once more welcome to our midst that prince of good fellows, H. Tebbis Alkire, who moved to this place last week. Tebbis will enter the office of the Circuit Clerk as deputy. A better appointment could not have been made.

—P. M. Zook, the photographer, is now prepared to make you as good pictures and as cheap, as you can get in St. Joseph. He also has a large stock of picture frames for sale cheap. Don't fail to give him a call. He does nothing but first class work.

—Persons traveling by railway are subject to continued annoyance from the flying cinders. On getting into the eyes they are not only painful for the moment but are often the cause of long suffering that ends in a total loss of sight. A very simple and effective cure is within reach of everyone, and would prevent much suffering and expense were it generally known. It is simply one or two grains of flaxseed. These may be placed in the eye without injury or pain to that delicate organ, and shortly they begin to swell and dissolve a glutinous substance that covers the ball of the eye, enveloping any foreign substance that may be in it. The irritation of cutting the membrane is thus prevented and the annoyance may be soon washed out. A dozen of these grains stowed away in the vest pocket may prove of great value in an emergency.—Ex.

—Few people estimate the value and importance of the fruit crop in Northwest Missouri this year. It is stated that Andrew county alone has sold over \$100,000 worth. Holt, the banner fruit county, will do better, while Atchison, Nodaway, Jewett and DeKalb, will assist. Of course no reliable figures can be obtained, but an estimate can be formed by considering the shipments from certain railroad stations. Stewartville, Savannah, Amazonia, Oregon, St. Joseph, and Maryville have been the principal shipping points for this season's crop, and estimates have been made which partially show the magnitude and importance of the fruit culture in Northwest Missouri. It is certainly gratifying to all owners of orchards, that the crop this year is a profitable one. Indeed, it may be stated that fruit culture always pays well. A complete failure of the apple crop in Northwest Missouri has never been known, while very near us, Iowa, Nebraska and Dakota, can not successfully raise apples. Whenever an acre of ground in apple trees with no cultivation other than trimming and looking after the trees, will bring a crop of apples worth say \$200—a very low estimate—it would appear to every farmer that a few acres in a carefully attended orchard, would prove more profitable than so much corn and hogs.—King City Chronicle.

—The "Mutual Club" met at the residence of Prof. O. C. Hill last Saturday evening the 3rd inst. Miss Cora Bayless read a very well written essay on Emerson, giving an excellent epitome of his philosophy; Miss Bessie Leimer read four quotations from an article "Emerson in the Lecture Room" in the June Atlantic; Prof. Hill read a lecture he is preparing on Gethse, which was entertaining; Mr. O'Fallon gave some well prepared remarks upon the last named author; this was followed by a short reference to new books purchased by different members of the club, giving their contents, characteristics, authors, prices, and publishers names; "Christian Lectures" (which contains two lectures delivered by Prof. O. C. Hill on the subject of the Study of Metaphysics); "Whence, What When" by a Boston Physician (a fine philosophical treatment of the Genesis, &c., of man); "Jesus the World's Savior" (a work of the Order of Roman Geikie, Godel Farrar); "Essays of Froude" (a fine collection) Thomas Biographical Dictionary (an excellent short reference manual.) We sincerely hope that other organizations of this character shall be put into operation. These clubs should have a membership of about twelve to give work to all and to give accommodation at the residences of members as there is no club room. Such organizations will stimulate students. We are sure any member of this club will assist in opening others.

—Everybody knows Hugh Herberger and Dan Lewis, and if they will look over our advertising columns they will see that they are in the field as live, energetic merchants of Maitland.

—The SENTINEL this week contains an interesting article entitled, "Nothing Succeeds Like Success," which should be perused by the many readers of the SENTINEL, as it will prove of great benefit to them, especially to those living in the northwest portion of the county.

—On Saturday evening last a very pleasant tea was had at the residence of Henry Peret, given to the G. A. R. boys. On Monday evening at the close of Capt. Seeley's lecture, the boys escorted their wives to the restaurant of E. P. Hostetter, and surprised them with an oyster supper.

—We have many worthy and deserving young men in Holt county, but none more so than our young friend Charley Curzon, who we regret to say left us Wednesday, for Las Vegas, New Mexico, where he goes to accept a position on the Santa Fe railroad. He will be accompanied by his venerable mother, who goes with him to join her daughter. The SENTINEL wishes Charley a long and prosperous life. A better boy never lived on God's green earth.

—After an absence of over two years in old Mexico, Mr. Jno. A. May, returned to his home in this city last Wednesday. He gives anything but a glowing account of that country, and thinks it the last place on earth for a civilized man to emigrate to. He brought us a fine lot of preserved locusts, centipedes, vinegar rhones and tarantulas, the pests of that country, the sting of the three later being poisonous, that of the vinegar rhone being fatal. He also brought us a goodly supply of the genuine Mexican cigar which we enjoy hugely. The insect specimens may be seen at King & Froude's.

—Captain Seeley delivered his lecture on "Gettysburg and Life in Southern prisons" in the M. E. church, on Monday evening, to a large and appreciative audience. The speaker occupied nearly two hours in describing one of the greatest battles recorded in the annals of history, with his experience as a prisoner of war for twenty months in Libby and other prisons. His descriptive powers are very excellent and his word painting surpasses the ordinary platform lecturer. There was no disposition in the speaker to berate any one who had engaged in civil conflict in the capacity of a true soldier. There was an ameliorating influence in the tenor of the entire lecture, calculated to do good in this time of peace and prosperity. The general verdict of the audience is, it was exceedingly interesting and profitable to all who heard it.

—Anderson & Boyd are now ready for the fall and winter trade, having just got in a large assortment of Robes and Blankets—as nobly a stock as we have ever seen in Oregon.

—Henry Prussman, an old and highly respected citizen, died at his home near this city on the 3d. inst., aged about 63 years. He came with his family to Holt county in 1867, and settled on his farm four miles south of this city on which he died. Some five years ago he was stricken down with a peculiar disease, which gradually worked its way to paralysis and was the cause of his death. Mr. P. was a consistent member of the German M. E. Church, a citizen that was highly respected for his honesty and integrity. He leaves a wife and six children in straitened circumstances. Rev. Aeling preached his funeral discourse on the 4th. His remains were interred in the Oregon Cemetery whither he was followed by a large concourse of friends and relations.

—We hear the young folks of Bigelow are contemplating a Literary Society, and we hope it may be a success as that is one place out of school where education can be taught.

—Think that "Buck," alias Comer had better be more accommodating than he has been of late as we hear considerable grumbling about the way he carries on things in the Postoffice.

—In the Brick hall were gathered to "trip the fantastic toe." We are told they had a pleasant time. But while you are trying to have a pleasant time you should try and set your nights of pleasure on some other one but not on the night of prayer meetings, for we should have more prayer meetings and the few we have should be better attended.

—Mr. Albert Chuning and wife were entertained at home by a few friends on Thursday evening after his arrival from St. Joseph, where they had gone to get out of the way of the boys of Mound City. They enjoyed themselves we are told until coming home some of the "bad boys" tied ropes across the walk. Boys you should be careful and not cause an accident of which you should be sorry afterwards.
